A SAVING

For the 1930 season I have combined my wholesale and retail price lists. You will realize this makes possible a considerable saving which I am passing along to you in reduced prices on our regular stock of high class gladiolus.

OUR POLICY OF SERVICE

Our SERVICE POLICY in merchandising does not mean just courteous salesmanship, prompt delivery, good measure, and the like.

It consists of a great deal more than those—service in ascertaining and fulfilling the needs and desires of the public in a satisfactory and economical manner, the searching out of the best markets of the world from which may be procured the products best suited to meet our customers' requirements; merchandise which must meet and conform to the very highest standards, and which must also represent the maximum of value that is possible for us to offer at any fair price.

In fine, such service, whatever be its nature, that you would expect to come from

“THE HOME OF THE WORLD'S FINEST GLADS!”

Important—At prices quoted in this List We Deliver the Goods free to your Express or Post Office. Those who are interested in larger quantities than herein listed will please state exact amounts and I will make very low price on round lots F. O. B. here. To safeguard against disappointments later, send your orders to

READ CAREFULLY BEFORE ORDERING

The prices quoted herein are for immediate acceptance and will prevail until further notice or until my stock of 1929 bulbs are all exhausted. They include all express and postal charges for delivery to your P. O. or Express office prepaid.

My stock this year was all grown under State Inspection Permit No. 2666 and was grown on new land five miles from where any Gladioli had ever been grown—as an extra precaution, all planting stock was treated with a solution of Mercuric chloride and my stock is as clean as I have ever seen anywhere.

To foreign countries and to States that require Special Inspection Certificates I am prepared to furnish them without any additional cost.

DELIVERY—We are now prepared to fill orders at any time, weather permitting. Orders will be held for Spring delivery by depositing 25% of the amount of the order balance to be paid at shipping time or the order will be sent C. O. D. for balance if requested.

SIZES—The sizes quoted herein are for standard sizes as recognized by the American Gladiolus Society. All orders will be filled with sizes ordered if possible. Orders for large quantities that can not be filled will be refunded. Small orders that can not be filled as ordered will be filled with the next size larger or the next size smaller, giving extra bulbs to make up the difference unless you request no substitution in your order.

5 at 10 rate, 25 at 100 rate, 250 at 1000 rate.

DISCOUNTS

For all Cash Orders received prior to March 1st, 1930, I make the following offer:

On cash orders for \$5.00 or more deduct 5% or select 5% extra bulbs.

On cash orders for \$25.00 or more deduct 10% or add 10% extra bulbs.

On cash orders for \$50.00 or more deduct 15% or add 15% extra bulbs.

On cash order for \$100.00 or more deduct 20% or add 20% extra bulbs in same or other varieties of customer's choice. It will pay you to get your friends to pool their orders with you—we will all benefit.

Minimum Order from this list is \$2.00.

Remittance may be made in Bank Drafts, Express or Postal Money Orders, or good personal checks. Please don't send postage stamps.

Guarantee—We guarantee all our stock to be true to name and free from disease. We cannot, however, assume any responsibility for crops other than to replace any bulbs not true to name or refund amount paid for same.

Reference: First National Bank, White Bear Lake, Minn.

BLOOMING SIZES

To our customers who are not familiar with the different sizes quoted herein—We do not recommend using anything smaller than No. 1, 2, or 3 for blooming the first year. Number one or Number two sizes will give best results for exhibition spikes while Number three size will give very good flowers for commercial purposes. Number 4 size may give satisfactory blooms in some localities and even the 5s and 6s may bloom under very favorable conditions, but they are usually sold only to those who wish to grow them to build up a stock for future blooms a year or two later.
